From Director's Desk

**DR. MANESH.B.KOKARE
DIRECTOR, SGGSIE&T,
VISHNUPURI, NANDED**

GREETINGS AND A VERY WARM WELCOME TO SGGSIE&T!

It gives me immense pleasure to welcome recruiters to Shri Guru Gobind Singhji Institute of Engineering & Technology, Nanded.

For over four decades, SGGSIE&T has been committed to nurturing technically proficient, innovative, and socially responsible engineers. Through a blend of academic excellence, research-driven learning, industry engagement, and holistic development, we prepare students to meet the evolving demands of the global workforce.

Our students are equipped with strong technical foundations, practical problem-solving abilities, leadership qualities, and professional ethics. The institute continuously strengthens its academic ecosystem through modern laboratories, research centres, international collaborations, and industry partnerships.

I invite your esteemed organization to engage with our talented students and become a part of our journey towards excellence and innovation.

From TPO's Desk

**PROF. S.B.MUNDHE
DEAN(INDUSTRY LIAISON)
& IN-CHARGE, TPO**

**ON BEHALF OF THE TRAINING & PLACEMENT CELL, I WARMLY
WELCOME ALL RECRUITERS TO SGGSIET**

The Training and Placement Cell at SGGSIET serves as a bridge between industry and academia, facilitating meaningful interactions between recruiters and students.

We focus on enhancing employability through technical training, aptitude development, communication skill enhancement, coding practice, industry interactions, internships, and career guidance initiatives. Our students are encouraged to participate in projects, research activities, hackathons, technical competitions, and innovation-driven programs.

We sincerely thank our recruiting partners for their continued trust and look forward to building new relationships that create opportunities for mutual growth and success.

About Us

Established in 1981, Shri Guru Gobind Singhji Institute of Engineering & Technology (SGGSIE&T), Nanded is a Government-Aided Autonomous Institute recognized for excellence in engineering education, research, and innovation.

The institute was granted autonomous status by the University Grants Commission in 2004 and has consistently focused on delivering quality education through outcome-based learning and industry-relevant curriculum.

Spread across a 46-acre campus, SGGSIE&T offers Undergraduate, Postgraduate, and Doctoral programmes across multiple engineering disciplines. The institute has received significant support from AICTE, DST, BARC, NRB, Government of Maharashtra, and World Bank-assisted TEQIP initiatives for research, infrastructure, and academic development.

Through a strong ecosystem of research, innovation, entrepreneurship, and industry collaboration, SGGSIE&T continues to develop highly skilled engineering professionals ready to contribute to society and industry.

Our Mission

- Deliver quality technical education through innovative teaching and learning practices.
- Promote research, innovation, entrepreneurship, and lifelong learning.
- Foster industry-academia collaboration for societal and technological advancement.
- Develop competent professionals with strong ethical and leadership values.

Programme-wise Intake

I. Undergraduate Programmes

Sr.No	Programmes	Intake
1	Chemical Engineering	30
2	Civil Engineering	60
3	Computer Science and Engineering	120
4	Electrical Engineering	30
5	Electronics & Telecommunication	120
6	Information Technology	60
7	Instrumentation Engineering	40
8	Mechanical Engineering	60
9	Production Engineering	60
10	Textile Technology	30
	Total Sanctioned Intake	610

II. Postgraduate Programmes

Sr.No.	Programmes	Intake
1	Civil (Water Management)	18
2	Computer Networks & Info Security	18
3	Artificial Intelligence	30
4	Embedded Systems & VLSI	18
5	Information Technology	18
6	Instrumentation Engineering	18
7	Mechanical (CAD/CAM)	18
8	Mechanical (PLM)	25
9	Structural Engineering	18
10	Textile Technology	15
	Total Sanctioned Intake	196

Placement Records

Year-Wise Placement Data

Department-Wise Placement Data

Labs

I. AICTE-IDEA LAB

SGGSJET, Nanded has been selected to establish the AICTE-IDEA (Idea Development, Evaluation & Application) Lab, one of five institutes in Maharashtra and the only from Marathwada and Vidarbha. The lab will be managed by students, offering training, boot camps, internships, and professional programs for faculty and students.

II. CENTRE OF EXCELLENCE (COE)

Selected by NPIU through competitive proposals as one of the premier institutions nationwide, our Center of Excellence (CoE) in Signal and Image Processing drives collaborative, multidisciplinary research. Powered by over 20 expert faculty members and 14 research scholars, the center utilizes a state-of-the-art laboratory to bridge academic innovation with industry application. By focusing on creating commercially viable technologies, the CoE actively trains high caliber R&D manpower and fosters entrepreneurial talent to meet evolving industrial demands.

III. CENTRAL COMPUTING FACILITY (CCF)

The Central Computing Facility, situated in the Administrative Building of SGGS, offers an open source computing platform for students, staff, and faculty. It houses 152 desktop machines and three servers, all connected to the internet via Ethernet Backbone Switches. The facility supports training programs, short courses, and technical workshops, providing access to the internet.

IV.

EMERSON-PASS LAB

The Emerson-Process Automation and Safety System (E-PASS) laboratory has been created at the Instrumentation Engineering Department by Emerson Automation Solutions Pvt, Ltd., located in Mumbai. The following instruments, totaling INR 20 Lacs, are part of the laboratory.

- Hardware for the Delta-V System is included.
- Hardware and Software of the Delta-V System RIO

An agreement has been made to sign a Memorandum of Understanding (MoU) with Emerson Automation Solutions Pvt. Ltd. The agreement covers the following:

- Training and lectures by Emerson specialists at SGGS
- Internships for projects.
- Faculty and student visits to Industries

V.

ENDRESS+HAUSER

The Instrumentation Engineering Department Laboratory received the following instruments from Endress+Hauser, valued at INR 12 Lacs.

The equipment in the lab includes the following items:

- Ultrasonic level meter, guided wave level radar, vortex flowmeter, magnetic flowmeter, and coriolis mass flowmeter.
- Mass Flowmeter Coriolis
- Flowmeter Measurement
- Radar Level Meter Wave Level

The Endress+Hauser IoT platform, Netilion, enables the realization of intelligent and networked applications around the Industrial Internet of Things.

TIEC LAB

The Technology Innovation and Entrepreneurship Center (TIEC) is an initiative of our institute dedicated to identifying entrepreneurial traits in students, nurturing technical capacity, and supporting campus technology startups. Functioning as a business incubator, TIEC serves as a commercial extension of campus research, enabling the conversion of innovations into market-ready products that address real world industry and societal needs. By championing a sustainable small-town business model, the center bridges regional employment gaps and counters tier-1 city migration offering corporations a cost effective, high yield alternative to metropolitan operational challenges.

Technical Clubs

RNXG

The goal is to enhance interest and understanding in robotics by offering practical, multidisciplinary experiences in mechanics, electronics, design, and programming. All departments will collaborate harmoniously to produce amazing products. For those in the institute community who want to progress in the technology realm, we offer an open platform. We use technology to solve problems in the real world.

SWAG

We are a group of passionate programmers who get together to work on interesting projects, learn new things, and exchange expertise. Our goal is to establish a welcoming, enjoyable atmosphere where members can develop as programmers. We also engage in group projects that allow participants to work together and apply their knowledge to actual issues. We provide members with a range of opportunities to collaborate on fascinating projects, network with other programmers, and acquire new skills through seminars, hackathons, and guest speaker talks.

HACKIT

Our goal is to provide people with the information and abilities necessary to protect digital environments and promote a safe online community on a worldwide scale. At The Shri Guru Gobind Singhji Institute of Engineering and Technology, our goal is to foster a community of enthusiastic cybersecurity enthusiasts by promoting awareness, training future leaders via hands-on experience, interacting with the public, establishing connections in the industry, and investigating a variety of career paths to improve prospects for employment and industry preparedness.

PHOENIX

Team Phoenix is a team of undergraduate automobile enthusiasts who built ATVs (All-Terrain Vehicles) under the name of Shri Guru Gobind Singhji Institute of Engineering & Technology, Nanded.

- The team was established in 2012 and has participated in many successful events to date.
- They design, analyze & manufacture an ATV under the rules and guidelines by BAJA SAE INDIA. Our team includes skilled and hardworking members who build a new vehicle every year.
- Every year we take this opportunity of infusing skills like problem solving and critical thinking in our dedicated team members.

ANNTRIX

The Astrophysics Club aims to cultivate a community of enthusiasts who are passionate about exploring the wonders of the universe. The mission of the Astrophysics Club is to ignite curiosity and foster a deep understanding of the universe through education, hands-on experiences, and community outreach. We aim to create a dynamic and inclusive environment where members can explore the wonders of astrophysics, collaborate on innovative projects, and share their passion for space science with the broader community. Our goal is to support the growth and development by providing resources, opportunities, and a supportive network, thereby contributing to the advancement of astrophysical knowledge and inspiring future generations of scientists and enthusiasts.

The college is home to several vibrant student-led associations that actively contribute to the all-round development of students. These include Team Drishti, Team Avaroh, Fatal String Dance Club (FSDC), Team Gandharva, Team Chitraksha, Team Sankalp, the UPSC Chapter, the Entrepreneurship Cell (Team Kautilya), Bhaskaracharya Math Club (BMC), and the National Service Scheme (NSS). In addition to these, the college also hosts various departmental associations such as ELITE (EXTC Department), ITSA (IT Department), CHESA (Chemical Engineering), PESA (Production Engineering), EESA (Electrical Engineering), and MESA (Mechanical Engineering). These departmental bodies focus on enhancing the technical, analytical, and practical skills of students in their respective fields. The primary objective of all these associations is to foster essential soft and professional skills among students, including communication, teamwork, leadership, time management, and much more. Through workshops, events, and collaborative activities, they play a vital role in shaping well-rounded, industry-ready individuals.

Departmental Clubs

ELITE

The Elite Club is a student-led technical and entrepreneurial club at SGGSIET, Nanded. It aims to connect students, foster innovation, and develop leadership skills through events like hackathons, workshops, and collaborations with other clubs such as Pragyaa. With a strong presence on LinkedIn, the club provides a platform for students to explore technology, build startups, and drive change.

IICChE

The Indian Institute of Chemical Engineers (IICChE) is a professional body of chemical engineers in India. It works to advance the development of chemical engineering in the country. IICChE Students Chapter SGGSIET Nanded was established in August 2024 under Nagpur regional centre. It organizes various Expert talks, Hands on training sessions, Various Paper presentation Competition and Guides students throughout their academic journey. Every year IICChE Student Chapter SGGSIET Nanded Organises a National Conference for Chemical Engineers.

EESA

EESA - Electrical Engineering Students' Association (SGGS) EESA is the official student association of the Electrical Engineering Department at SGGSIET. It aims to foster technical skills, leadership, and teamwork among students through workshops, seminars, industrial visits, and technical competitions. EESA provides a platform for holistic development, empowering students to become confident, industry-ready professionals.

Student Activities

Pragyaa, an annual technical fiesta at the national level, is held at SGGSIET, Nanded gives students a chance to showcase their skills in technical arenas. Every year, it has a positive theme that focuses on technology and societal welfare. Students flock in large numbers to take part in a variety of events, such as the peer robotics competition, the junior scientist brainstorming session, and to see a range of exhibits. Every year, it elevates to new heights of splendor by concentrating on the superiority of technology for the welfare of people and incorporating fresh elements into its success.

PRAGYAA

UTSAV

UTSAV, an annual cultural fest is a three-day celebration of student talent and creativity. It features diverse events such as dance performances, music concerts, literary competitions, etc. The fest also offers food stalls, creating a lively and festive atmosphere. Utsav begins with a celebrity appearance, making it a memorable and enriching experience for all participants and attendees. The event concludes with the dignitaries felicitating the best performers.

ZENITH is a state-level sports extravaganza of our college, started in 2016. As we know, sports improve our confidence, health and it promotes team spirit, encouraging students to actively participate and explore the enthusiasm of this event. The tagline of something gives short but deep insight of what we are getting out of it. So this year Zenith comes with the tagline "A Celebration of Eternal Glory".

ZENITH

RMAGEDDON

A vibrant robotics team called **RNXG** is based in Nanded, Maharashtra. The team prioritizes innovation and works on a variety of projects including robotics, drones, autonomous bots, Internet of Things (IoT), surface mount devices (SMD), open innovation, and cutting edge technologies like deep learning and artificial intelligence (AI). Their varied portfolio demonstrates a thorough approach to research, development, and practical application and their dedication to investigating and expanding robotics technology across several fields. Working at the nexus of multiple technological domains, RNXG is leading the charge in promoting creativity and adding to Maharashtra's robotics scene's constant change.

Hack Fusion is a dynamic technical hackathon organized by the **SWAG Club**, envisioned as a breeding ground for innovation, creativity, and real-world problem-solving. Held in Nanded, Maharashtra, Hack Fusion brings together brilliant minds from diverse technical backgrounds to collaborate, compete, and create impactful solutions. Participants explore a wide array of domains including web development, mobile apps, cybersecurity, blockchain, machine learning, artificial intelligence (AI), Internet of Things (IoT), and automation. The event fosters a culture of open innovation, rapid prototyping, and interdisciplinary teamwork, empowering developers, designers, and entrepreneurs to transform their ideas into functional prototypes within a limited timeframe.

HACKFUSION

Achievements

International Conference – AESSEE 2026

SGGSIE&T, Nanded successfully organized the International Conference on Advances in Engineering and Science for Sustainable Environment and Energy (AESSEE 2026) under Sankalp 2.0. The conference brought together researchers, academicians, industry experts, and students to discuss sustainable technology, clean energy, and environmental innovations. It provided a valuable platform for knowledge exchange, research collaboration, and industry-academia interaction at a global level.

A team from SGGSIE&T, Nanded secured an impressive **All India Rank 5** in the prestigious **e-Yantra National Robotics Competition 2025–26**, organized by **IIT Bombay**. Competing against 500+ engineering institutions across India, the team demonstrated exceptional skills in robotics, embedded systems, and real-time problem-solving. This achievement highlights the institute's commitment to innovation, technical excellence, and hands-on learning.

Our students achieved a remarkable **3rd Rank at the prestigious STARTEX 7.0 competition**, conducted at the national-level student symposium **TEXVISION & FASHIONOVA 2026**, organized by the Department of Textiles, **D.K.T.E. Society's Textile & Engineering Institute, Ichalkaranji**. Competing against participants from leading institutes across the country, the team demonstrated exceptional technical proficiency, innovative problem-solving abilities, and strong teamwork in the field of Textile Technology. This accomplishment reflects the institute's commitment to fostering practical skills, creativity, and industry readiness among students.

Glider Making Competition (COEP MindSpark'25)

Students secured **1st Prize** at the Glider Making Competition during COEP Technological University's prestigious MindSpark'25. The team designed and developed a **hand-launched glider by applying key aerodynamic principles** such as lift generation, stability analysis, and optimal weight distribution. Through systematic testing and iterative design improvements, the glider was refined to achieve superior flight distance and control. The students demonstrated strong engineering design, analytical thinking, and teamwork, securing the top position in the competition.

Sustainability Innovation Challenge

Students of SGGSIE&T secured top positions in the Sustainability Innovation Challenge conducted under the IIT Bombay-Honeywell Centre of Excellence for Future Skills & Innovation. The winning teams developed innovative solutions addressing real-world sustainability challenges, demonstrating excellence in innovation, problem-solving, and entrepreneurial thinking. Their achievements reflect the institute's strong culture of research, creativity, and industry-oriented learning.

Students of SGGSIE&T achieved remarkable success at the **Inter-Collegiate State-Level Drama Competition 2025-26**, organized by the Directorate of Cultural Affairs, Government of Maharashtra. Competing against top institutions across the state, the institute's drama team secure the Second Prize, along with multiple individual accolades including Best Direction, Best Script, Best Acting, and Best Stage Performance. This achievement highlights the institute's vibrant cultural ecosystem and the students' creativity, teamwork, and excellence beyond academics.

Training & Placement Cell

The Training & Placement Cell (T&P Cell) at SGGSI&T is dedicated to shaping students into industry-ready professionals by combining academic learning with practical exposure. Beyond facilitating campus recruitment, the cell organizes a wide range of seminars, webinars, and bootcamps that connect students with industry leaders, alumni, and global experts.

Flagship Events & Industry Interactions (2025–26)

The Training & Placement Cell is committed to enhancing students' employability by aligning academic learning with industry expectations through expert sessions, workshops, and industry interactions, ensuring continuous skill development and practical exposure. Some of the key initiatives include:

- **3-Day Bootcamp on Soft Skills, Cybersecurity & AI (March 2026):** A transformative program featuring Mr. Dnyanesh Kamath (Former Director – HR, Petrofac), Dr. Nareshkumar Harale (Ex-SVP, SBI & Ex-CISO RBI), Mr. Ganesh Ghungarde (Vice President, Northern Trust), Mr. Anil Kasture (Senior Manager – Capgemini), Mr. Atul Khiste (Head of Product – AI/ML, Wipro Linecraft AI), Ms. Gauri Tike (Product Manager, Infinite Analytics), and Mr. Tushar Sakhare (Technical Architect, Perficient India). It emphasized soft skills, resume building, cybersecurity, autonomous vehicles, AI/ML, and data analytics.
- **Seminar: Challenges & Career Opportunities in Semiconductors (Jan 2026):** Delivered by Dr. Krishna Kanth Avalur (Founder & CTO, MOSart Labs) and Mr. Pattaswamy LakshmiNarayana (Manager – Learning Solutions, MOSart Labs). The session centered on VLSI fundamentals, semiconductor industry trends, India's role in the global supply chain, and career pathways in core electronics.

- **Webinar: From Campus to FAANG (Aug 2025):** Conducted by Mr. Milind Jagre (Data Scientist 4, Apple Inc., USA; SGGS alumnus). Key areas of discussion included FAANG preparation strategies, resume & LinkedIn optimization, data science career insights, and interview readiness.
- **Webinar: From Circuits to Semiconductors (Sept 2025):** Led by Mr. Aryan Bhadoriya (Hardware Design Engineer, Vicharak; SGGS alumnus). It highlighted PCB design fundamentals, FPGA systems, India's semiconductor ecosystem, and career guidance in hardware design.
- **Seminar: Careers in Quant Trading (Sept 2025):** Delivered by Dr. Santosh Chavan (Head of Quant Trading, Algoquant; SGGS alumnus). The seminar delved into Quantitative trading fundamentals, mathematical modeling, programming in finance, and career opportunities in trading firms and fintech.

Strategic Initiatives

- Expert sessions in collaboration with IIT Bombay, Honeywell, and COEP Technological University.
- Industry-aligned training on semiconductors, cybersecurity, AI/ML, and quantitative finance.
- Career guidance workshops covering resume building, interview strategies, and global opportunities.
- Alumni-driven mentorship programs to inspire students with real-world success stories.

Achievements (2025–26)

- Hosted 90+ recruiting companies, including leading multinational corporations.
- Secured 500+ placement offers across diverse engineering domains.
- Recognized as the Best Cell by the Institute for impactful initiatives.
- Successfully conducted a 3-Day Placement Training Bootcamp with 7+ industry experts.
- Strengthened industry partnerships through MoUs and collaborative sessions.
